DETAILED ACTION

Allowable Subject Matter

1. Claims 1-11 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

After further review and searching by the examiner of record the examiner agrees with applicant's remarks filed February 5, 2004 and in view of the remarks below.

Regarding claim 1, the prior art fails to disclose or make obvious a system for detecting and monitoring inter layer dielectric "ILD" void formation having a measuring system for measuring parameters of the ILD layer based on light reflected from the at least one portion of the ILD layer and a processor for determining the presence of a void in the ILD layer, and in combination with the other recited limitations of claim 1. Claims 2-7 are allowed by the virtue of dependency on the allowed claim 1.

Regarding claim 8, the prior art fails to disclose or make obvious a method for detecting and monitoring ILD void information having the steps of defining a ILD layer as a plurality of portions and comparing a reflected light array from the at least one portion to a database, where the database comprises known ILD layers having at least one void present, to determine the presence of the at least one void in the at least one portion associated with the ILD layer, and in combination with the other recited limitations of claim 8. Claim 9 is allowed by the virtue of dependency on the allowed claim 8.

Regarding claim 10, the prior art fails to disclose or make obvious a method for detecting and monitoring ILD void formation having the step of partitioning an ILD layer into a plurality

of grid blocks and collecting light reflected from the at least one grid block which is compared to a reflected light array from the at least one grid block to a database where the database comprises known ILD layers having at least one void present to determine the presence of the at least one void in the at least one portion associated with the ILD layer, and in combination with the other recited limitations of claim 10. Claim 11 is allowed by the virtue of dependency on the allowed claim 10.

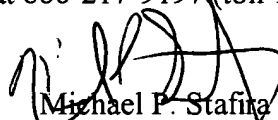

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
